

What is Collaborative Law?

Join us for a complimentary Family Law Seminar
Presented by the Memphis Collaborative Alliance

Collaborative law is a voluntary, contractually-based alternative dispute resolution process for parties who seek to negotiate a resolution of their matter rather than have a ruling imposed upon them by a court or arbitrator.

This session will provide an overview of collaborative law and the collaborative process: how is it different from mediation and litigation, who are the professionals involved, and what are their roles in the process?
