### Franchise Valuation & Consulting

Valuing a sports franchise requires deep industry knowledge and experience. Major league professional franchises are privately owned; therefore, real market data is not readily available to most business appraisers. The professionals of Mercer Capital have the knowledge and experience to understand the complex economics of a professional sports franchise valuation, having performed scores of valuations for franchises in each major professional league and several minor leagues. Below is a list of services and examples of recent experience.

#### **Valuation Analysis**

- Gift and estate valuations of franchises and minority interests in franchises
- Valuations for negotiations between parties for buyouts or sales between shareholders

#### **Buy-Side & Sell-Side Analysis**

- Assisted in formulating purchase price and proposed structure of new entity for a multiple pro sports teams
- · Advised potential bidder on merits and risks of an NHL franchise during the pre-salary cap era
- Served on Executive committee for MLB franchise in sale process
- Provided due diligence for several NFL teams
- · Provided a pro forma cash flow model for a MLB team

#### **Licensing/Media Rights**

- Reengineered the rights, royalties, and licensing processes of a major entertainment organization
- · Assisted in negotiations and remodeling for various licensing agreements

#### **Tax Negotiations**

- Dealt with the IRS on numerous occasions and have had some of the largest tax valuation issues approved 100% by the service
- Successfully handled U.S. tax audits on numerous relevant issues for major sports leagues and several franchises

#### **Divorce**

Our professionals provide expert witness services and other litigation support in divorces that involves ownership in a sports franchise.

Given our decades of experience, we have extensive knowledge of teams and leagues as well as strong relationships with leagues that allow us access to pertinent data. Our lead professionals are nationally recognized experts in professional sports valuation issues.

#### **Valuation Services**

- · Valuation of sports franchises
- Valuation of intellectual property and other intangible assets
- Determination and valuation allocation of personal and enterprise goodwill
- Valuation of stock options, pensions, notes, & other investment assets
- Employment contracts and other compensation agreements

#### **Advisory Services**

- Expert witness testimony
- Serving in mediation, arbitration, or as courtappointed and/or mutually agreed-upon experts
- · Forensic Services
- Tracing Services
- Critique of opposing expert reports
- Impact of transactions on valuation
- Economic research
- Public securities, market, and industry research
- Assistance with depositions and cross-examination
- · Developing case strategy
- Preparation of demonstrative exhibits

#### **Franchise Valuation Process**

When considering the value of a major professional sports franchise, the buyer(s) and seller(s) will consider, among other things, the outlook for the league, the economics of the team, local economics, national revenue streams, player contract rights, the inclusion of other non-team related assets (such as stadium rights, media rights, real estate, etc.), and the valuation of the relative assets.

#### Understanding and consideration of assets being sold

#### Consideration and collaboration on various strategic options

Due diligence, research & risk analysis of various existing & potential revenue streams;

Valuation impact of current & potential future media rights

Cost structure including current player contract terms & expense profile

Optionality evaluation of potential future impact of current or potential new stadium deal with a state government agency

Potential tax issues related to a buyer

Forecasting and modeling of various scenarios

#### Consideration and research of recent franchise transactions

#### Valuation of team and stadium interests

#### **Purchase Price Allocations**

The professionals of Mercer Capital have extensive experience in providing purchase price allocations (ASC 805 - the fair value of assets acquired in a team) for teams in several leagues. Our professionals are nationally recognized as leaders in the valuation industry and hold the most rigorous credentialing designations including the CFA, ASA, and CPA, among others, which are representative of the highest standards in the valuation and accounting industries and have a thorough understanding of accounting and tax rules. National audit firms have consistently referred financial reporting valuation assignments to Mercer Capital.

We typically perform purchase price allocations encompassing a varying number of intangible assets including:

- Stadium lease agreements
- · Player rights
- Season ticket holder contracts
- Suite contracts

- Sponsorship contracts
- · Media contracts
- · Franchise value

As part of our full suite of services, we handle several different kinds of special projects that team finance departments may be looking to outsource, completely or partially. For example, Mercer Capital helps clients think through certain financial or strategic questions – what level of cash flow reinvestment will best balance competing shareholder interests? Or, what is the appropriate hurdle rate when evaluating projects for capital budgeting exercises? In other instances, we perform financial due diligence and quality of earnings analyses for some transactions.

When it comes to purchase price allocations, most clients contact us well after the transaction has progressed or closed. Over time, discussions with some clients have shifted a bit from providing fair value measurements exclusively on the back-end of transactions to getting a bit of preview as teams think through transactions.

### **Team Economics and Forecasting**

Our experience and in-depth knowledge of all four professional leagues, their structure, and the actual financial performance of many teams enables us to:

- · Perform meaningful revenue and cost analysis
- Understand the merits of the subject asset against real benchmarks (as opposed to the sometimes-unreliable data in the public domain)
- Develop realistic projections for better decision making

### **Stadium & Sports Betting Optionality**

Mercer Capital's specialized knowledge base make us the most capable to evaluate the various structuring and economic scenarios associated with a team's potential new stadium scenarios as well as potential impact of widespread legalized sports betting, including:

- · Developing a range of economic scenarios and the benefits that would accrue to a new owner under those scenarios
- Utilizing recent transaction and negotiation experience with current owners, third parties and government agencies to develop a
  probability and time weighted optionality factor to apply to the expected benefits
- Employing real option theory to estimate a range of incremental bid pricing for a potential new stadium deal or equity purchase
